

Deep within the haunted crypts of Snowflake, a mysterious function lurks in the shadows, waiting to be summoned this All Hallows' Eve.

This arcane spell allows brave souls to compare the whispers of strings and magically score their eerie similarities. As the witching hour approaches, can you conjure this spectral function to decipher which incantations align the closest in their haunting harmonies? Beware, for only those truly versed in the dark arts will master this challenge! 🎃👻

Start-up code

The phantoms of code demand that you unveil sentences with scores that eclipse a chilling 90!
